SUMMARY

I am a "Highly motivated and skilled IT professional and a recent graduate with a passion for cutting edge technology and a drive to make a positive impact in the world of engineering. Armed with a solid foundation in IT principles and hands-on experience in diverse projects, I am eager to embark on a rewarding career journey. Through a combination of coursework and extracurricular activities, I honed my problem-solving abilities, analytical thinking, and teamwork skills.

EXPERIENCE

- **Web Development Intern**
    - I Have Completed Internship At Paarsh InfoTech. (September 2020 – December 2020).
    - Designed and developed an orphan support website using HTML and CSS.
    - Designed Ordering Food Product website using HTML, CSS, and JavaScript.

PROJECTS

1. **Placement Management System**
   - TNS India Foundation
   - Built Placement Management System for seamless coordination, featuring profiles, job postings,scheduling, and progress tracking.
   - The placement process. And Build Spring Boot Application for Placement Management.
   - A key Feature of the system is the one-time registration process. The placement cell will use the system to invite companies for campus interviews and allow them to selectively view student resumes.

2. **Human Resource and Recruitment System**
   - College Final Year Project • August 2022 -June 2023
   - The goal was to develop Human Resource System for fresher's or experienced candidates which can automatically assign departments to fresher's or experienced candidates coming into the company.
   - For fresher's, there will be an aptitude test focusing on various areas such as front-end, Backend, and database. After analysis of scores obtained by the candidate's system will suggest the most suitable Department for that candidate and it will show the score of that candidate in Aptitude to HR.
   - The system can have Profiles for Multiple HRs and it will have interactive dashboards.

3. **Blog Management System**
   Link: https://github.com/Shriyashthakare671/BlogManagementSystem-AdvanceJava
   - It Is a Server-Side Web Application Using Advance Java, HTML5 and CSS, XML, Servlet, Hibernate, POJO's, DAO's Class etc...
   - Duration – April 2024 – May 2024.
   - Web Server – Apache Tomcat 8.0.22.
   - In this Project I have Created Personal Blog Details for Editing, Deleting blog and Also Have Creating new Blog and All Data Are Stored in MySQL Database.

EDUCATION

Education	Collage/University	Year	Grade
Bachelor of Engineering	Pune Vidyarthi Girahs College Of Engineering & S.S.dhamankar Institute of Management. Nashik	2019-2023	CGPA – 7.63.
HSC	S.N.J.B Secondary & Higher School, Chandwad. Nashik.	2019	74.00 %
SSC	S.N.J.B Secondary & Higher School, Chandwad. Nashik.	2017	89.40 %

CERTIFICATIONS

Certificates	Platform	Company Name	Duration	Description
Google Data Analytics	Coursera	Google.	August 2022 – November 2022.	Data Visualization. Data Analysis. Data Analytics.
Software Engineering Job Simulation	FORAGE	Goldman Sachs	September 2023.	Software Development And Programming.
Agile Job Simulation	FORAGE	JP Morgan Chase &co	September 2023.	Agile Methodology. Scrum Framework and Scrum Master
JAVA FULLSTACK.	-------	TNS India Foundation.	January 2023 – April 2023	Database Using MySQL/SQL. Core Java, Hibernate, HTML & CSS

SKILLS

Technical Skills.	HTML5, CSS3, C Programming, C++,My SQL, Core Java, React, Full Stack Java, Frontend,OOPs, Networking ,MYSQL Server, Android
Soft Skills.	Quick Learner, Problem Solver, Creativity, Positive Attitude, Good Communication, Multitasking.
IDE & Editors	Visual Studio Code, Canvas, Microsoft Word, Microsoft PowerPoint, Tableau, Trello, Jira, Spring Tool Suit, Android Studio
Server-Side Technology.	Spring framework, Spring Boot, Hibernate framework.

Have Good Knowledge About.-

	Tools	Description
Code Management Tools.	Bit bucket And GitHub.	Aware of the Linux commands for pushing the code, Cloning the code, and merging and creating branches.
Project Management Tools.	Jira	Aware of Jira board, Jira Backlogs, and defect life cycle in Jira.
Visual Tool	Trello	It is a visual tool that enables your team to manage any type of project, workflow or any task Creating a board for our project Review in TO DO, Doing And Done List.
Agile Methodology	--------	Agile methodology is a project management and software development approach that prioritizes flexibility, collaboration, and customer- centricity.
Scrum Methodology	-------	Scrum Framework It is a Way of Organizing, approaching, and monitoring a Project.
Web-Server	Apache Tomcat 8.0.22.	It is used for Databases. And creating server-side web Applications.
